DETAILED ACTION

Page 2

- 1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/7/2004 has been entered.
- 2. Claims 46,47,53,55-57 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Bock et al (4,831,092).

The claimed terpolymer is shown in columns 7 and 8 of Bock et al. The value of y, which corresponds the claimed (meth)acrylamide, monomer (c) most preferably ranges from 25 to 94.8; x, which corresponds to claimed monomer (IV) ranges from 0.1 to 20 mole percent. In regard to claim 55, the ranges in Bock et al overlap the claimed ranges. Note that Q corresponds to the claimed cationic quaternary ammonium bearing monomer. Note also that the new limitation that R_8 and R_9 in formula IV are each propyl or isopropyl is met by Bock et al , column 7 where $R_1 = C_4$ branched alkyl = isopropyl and $R_2 = C_3$ = propyl. Thus, Bock et al anticipates the claimed invention and in the case of claim 55, overlapping range. If there is any difference in the substituents of the cationic monomer, such difference would have been obvious.

3. Applicant's arguments have been considered and found not be convincing of patentability. Bock et al shows the claimed polymer, irrespective of its intended use.

Art Unit: 1731

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Chin whose telephone number is (571) 272-1186. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on (571) 272-1189. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
